Hockey News.

Eddie Mayer will take his hockey aggregation to Leduc tomorrow, to play a return game. Among those to go will be Eddie Mayer, in goal; defense, Outway and L. Wudel; forwards, Mag Larson, Otto Miller, Art Davis, Oscar Oppertshausner, R and Ez Lory, Ed Raders.

A large sized delegation of hockey fans motored up to Onoway Friday night, to witness the game between our Tigers and Onowayonians, a truck and several cars being commandeered to do the transporting. The game resulted in a win for Onoway by a score of 4 to the Tigers' 3 goals.

Thurs Jan. 7th, at Stony Plain—Flies 2, Wabamun 1; 10 mins. overtime.

Owing to the non appearance of the Blueberry team at the local rink Sat. Aft., when they were to have played Stony-Juveniles, the game had to be postponed to Sat. next at 2.30.

Opening the Legislature.

The opening of the Alberta Legislature will be later than usual, this year, Thurs. Feb. 4, being the date set by the Government. This is the same date that the House of Commons opens, and it is presumed that the Saskatchewan Legislature will open on the same date.

The Feb. 4 will be a week later than usual for the opening, it is thought that the Legislature will close about the usual time, a session of not much over seven weeks being anticipated.

Death of Mr. Fraser.

Oldtimers of Stony District will regret to learn of the sudden death in Edmonton last week of a former resident of this district in the person of Theodore C Fraser. Deceased was for several years manager of the Government Demonstration Farm, at the head of Main St., and made a host of friends with farmers while here. He had been at one time in charge of the C. P. R. stock farm at Claresholm. On leaving here, he accepted a similar position at the Robertson farm at St. Albert, resigning from the latter position on account of his age, he spent part of the summer of 1930 in this district handling life insurance for an Edmonton agency.

The New 1932 Essex.

Mr Geo Oppertshausner, the agent here for Hudson and Essex motors, was present in Edmonton on Friday last at the dealer conference under the auspices of the Freeman Co. A feature of the conference was the first showing of the new models of these popular cars. In the morning all the dealer delegates attended Rialto Theater, where a sound motion picture "Watch Hudson" was shown. Following the visit to the theatre, the party were guests at a banquet at the Freeman show-rooms on 101st St.

Disarmament,—Or War?

In the month of February, 1932, there will be convened a great conference of all nations to deliberate upon the problem of how to bring about world disarmament. It will be one of the most representative conferences ever held, while its decisions will be of the most momentous character, fraught with tremendous good or ill for all peoples.

A cynic may be inclined to inquire as to the necessity for a disarmament conference in view of the fact that in 1914-1918 a great war was fought with the declared object of ending all further war. The nations which avowed this to be their object won that war. Having won, why the continued necessity for huge armaments; why the necessity for a solemn convocation of the nations to endeavour to bring about disarmament?

The truth is: War will never be ended by War. The Great War 1914-1918 was not the first one to be fought to prevent future war. We read in the works of Mr. James Branch Cabell, an erudite student of the history and customs of the South of France, of how the Duc de Puyssange in the year 1697 addressed his ten-year-old son in these words:

"Now that we have almost reached the eighteenth century, and all the nations have signed that treaty of Ryswick to prevent there ever being any more wars, and people are riding about peaceably in sedan chairs, and are living in America," etc., etc.

Yet how many wars have been fought since 1697 although even then there was a treaty signed by "all" nations to prevent war?

Following the Great War 1914-1918, the nations set up a League of Nations having as its main purpose the prevention of war. Notwithstanding that two of the greatest nations in the world refused to become members of the League, it has accomplished much, but not enough. Then followed the treaty of Locarno, the Washington conference which achieved a measure of limitation of naval armaments, and finally the Kellogg Peace Pact, signed by practically every nation, declaring war an outlaw and solemnly pledging themselves, each to the others, never to resort to war as an instrument of national policy against any other nation.

And yet, the nations continue to be armed camps. The so-called peace-time armies of today out-number those maintained prior to 1914. War instruments and machines of destruction not only possess the land and sail the seas, but they dive under the seas and fly over the land. In a machine-age, armies, navies and air armadas have become highly mechanized, holding in leash powers of destruction and horrors of suffering previously unsurpassed in man's imagination.

At a time when millions of men are out of productive employment, when want and suffering stalks through hundreds of thousands of homes, when practically every nation is plunging deeper and deeper into debt, when billions of dollars are being spent annually to increase and strengthen these huge war machines. Nor is it the semi-civilized, the least intelligent, the non-Christian nations which are the leaders in these insane and criminal acts, thus forcing civilized and Christian people to prepare to defend themselves. No, it is the nations which boast of their higher civilization and call themselves Christians who are setting the pace in preparing for another war.

Soviet Russia, which claims it is setting an example to the whole world in the development of a new order, a better way in which mankind should live, is one of the worst offenders, with its government compelling the people to learn all the arts of war hand in hand with the arts of peace. The United States, far removed and immune from the century old suspicions, jealousies and hatreds of Europe, and safe from attack, leads the van in demanding a huge navy and in the maintenance of a large standing army. France remains armed to the teeth, with Italy a close second. Great Britain has gone far farther than any nation in reducing armaments and is prepared to go much farther, prepared to go the limit in fact, if other countries will do likewise.

The hope of the world lies in the success of the forthcoming disarmament conference. War will not end war; rather each war but precipitates another. Disarmament alone will prevent war; it is the sole preventive measure, and in this case prevention alone will provide the cure. Give a boy a rifle and he will not be happy or content until he uses it. Give a nation a huge army, a powerful navy, airships and submarines, and as sure as night follows the day, it will, sooner or later, make use of them.

The hopes, the prayers, every ounce of influence possessed by each and every individual should be directed to making the forthcoming conference a success, wholly and completely so. Then, indeed, will a new day dawn for all nations and peoples.

To Increase Tariffs

Premier Rensin, of Belgium, announced that he intended to make use of the powers conferred by the government to increase tariffs and regulate imports. Announcement was interpreted in political circles as foreshadowing imminent defensive measures against protectionist regulations of other countries as a temporary policy.

"Do Fish Ever Sleep?" asks a scientific article. Well they ought to with all the free river, lake, and ocean beds.—*B'nai B'rith Messenger*.

Too Many Middlemen

If the United States folk are disrespectful to the Canadian dollar, why should this country's business men import raw materials from abroad through agencies in that country? There are too many middlemen getting their "wack" before the ultimate consumer receives his goods. In planning to stop this business the minister of trade and commerce is on the right track.—*Toronto Globe*.

A yield of 75 bushels of Garnet wheat to an acre was obtained on a small area near Edmonton, Alberta.

Sharp Pains In His Heart Nerves In Bad Condition

Price 50c a box

Mr. Fred J. Chase, Thompson Station, N.S., writes:—"I have used Milburn's Heart and Nerve Pills with wonderful results. My heart would beat so fast I would have to sit down when at work chopping in the woods. I had sharp pains in my heart when I would lie down at night. My nerves were also in a very bad condition, but after using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

Short Paid Letters

Christmas Greetings From United States Lacked Necessary Stamps
So many United States citizens forgot to add an extra one cent stamp to the envelopes bearing their Christmas cards this season that no less than 725,000 letters from across the border arrived short paid in Toronto during the holiday rush.

To avoid a recurrence of the difficulty, Toronto authorities stated recently, Ottawa is making a request to Washington postal administration to make better known the fact that it takes three cents to carry a letter from the United States to Canada.

3 MONTHS OFF WITH NEURITIS

"I suffered awful pain for two years with Neuritis and Sciatica, and was off work for three months' time. After trying everything I could think of, without getting any benefit at all, I tried a bottle of Kruschen Salts. After my second bottle, I started working again, and I am very glad to tell you I am still working, and I am quite free from any pain whatever."—S. R. B.

The pains of Neuritis and Sciatica are a symptom of deeper trouble—the same trouble that causes rheumatism, gout and lumbago. They are a sign of an impure blood-stream. They show that poisons have crept into the blood. Kruschen is a combination of six natural salts which cleanse the internal cleanliness and keep the blood-stream pure. New and refreshed blood is sent coursing to every fibre of your being. Neuritis, Sciatica and kindred ills all pass away by. Depression and lassitude vanish like mist before the sun.

Recalls Men Back To Work

The Oshawa plant of the General Motors of Canada, Ltd., has re-called 1,000 of its employees to work during the month of December. Improved business conditions have helped in restoring the pay roll to a nearly normal condition.

Perian Pain is a true elixir of youth. Refreshes and rejuvenates. Adds a youthful charm to the complexion. Softens and beautifies the skin. Makes hands flawlessly white. Indispensable to the woman who appreciates subtle distinction. Delightful to the man who desires fragrant. Soothes dry and irritated skin. Corrects and preserves. A flawless toilet requisite for every discerning woman. A true aid to beauty.

How Many?

"Now, boys," said the school teacher, "is there any question you would like to ask me about long measure before I pass on to the next class?" "Yes, sir," said Jimmy Jones, "How many policemen's feet does it take to make a Scotland Yard?"

Asthma Doesn't Wear Off Alone. Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and saves hours of awful suffering.

Before the advent of the white man, Eskimo knives were made from native copper.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

An evening school started a course in plumbing, and after the first lesson the class forgot to attend.

Douglas' Egyptian Liniment. Stops aches quickly, always certain. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning. Splendid for muscular rheumatism.

Why is that a big heart and a big pocket book seldom travel far together?

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Exterminator.

House spiders lay as many as 60 eggs at a time, carefully enclosing them in a bag of silk.

Epidemic Peculiarities

On Some Days Man's Skin Is Death To Bacteria

Man's skin on some days is death to bacteria, but on others is something they love to touch.

This strange, varying power of the skin to kill bacteria was explained to the Society of American Bacteriologists at Baltimore. The experiments were performed by Justin H. Hill and Edwin C. White, of the James Buchanan Brady urological institute of Johns Hopkins University.

Dominion Checker Tournament

To Be Held In Regina Commencing February 8th

The Canadian Checker Association is holding the Annual Dominion Checker Tournament at Regina, Sask., for the week commencing February 8th, 1932. A cordial invitation to attend is extended to anyone interested. The committee hopes to make this a real tournament. Further particulars may be obtained from J. E. Watson, 974 Athol St., Regina.

The Oil For The Athlete.—In rubbing down, the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years, have been using it can testify to its value as a lubricant.

Grain Raising On Indian Reserves

Indians in the three Prairie Provinces of Canada had under cultivation in 1930 about 112,000 acres. The report of the Department of Indian Affairs also shows that in the spring of that year these wards of the Government sowed 38,156 acres to wheat, 24,759 acres to oats, 5,442 acres to barley, 2,918 acres to rye, and had several hundred acres of gardens. They summer-fallowed approximately 32,273 acres.

A trust may be able to limit the output of whiskey, but it can't limit the input.

LADIES WANTED TO DO LIGHT sewing at home, good pay. Work sent, charges paid. Stamp for particulars. National Manufacturing Co., Montreal.

Educating Canada's Indians

A total of 360 centres of Indian educational activity in Canada, composed of 78 residential schools and 272 day schools, is reported for 1930 by the Department of Indian Affairs. The total enrolment was 15,743 and the average attendance, 11,579.

Scientists Have Hopes Of The Ultimate Development Of Radio Power Transmission

Scientists have high hopes for the ultimate development of radio power transmission. Even governments anticipate it. As fantastic as it may seem, other dreams of advancement in science have materialized after experts had discouraged their possibilities.

Lawrence M. Cockaday, New York University professor and noted radio engineer, told the Canadian Press "the beam systems of extremely short waves may yet open up the field of possibility and make feasible the transmission of larger powers along the airwave path."

"In this eventuality," Mr. Cockaday continued, "power transmission could be used for great air carriers in flight. As well as ocean liners, battleships and moving vehicles. Even in this day it is possible to control these moving carriers by means of radio energy."

The latest development is the discovery of micro-waves, so small that they are measured in centimetres. Micro-waves permit a high degree of efficiency at receiving stations.

Further, concentration of the radio "beam" in one direction, also a late development, means a higher efficiency of power at the receiving end. Mr. Cockaday has been conducting investigations into the concentration of beams.

The future can easily be imagined. The initial source of energy would be huge power plants at natural water-power developments. These developments would transmit power to various cities and community centres to be redistributed within their domains.

Each community would have a retransmitting station to distribute the energy categorically—domestic appliances, moving vehicles, etc.

The "beams" would be transmitted at various levels for different uses—one perhaps above house tops for domestic use, and another at a level where automobiles might pick up the power. To save loss of power, a receiving station at the far end of the city would pick up unused power, storing it for redistribution.

Applied to vessels at sea, the problem of diminishing fuel would no more trouble the captain. The course of the vessel might even be simplified, the power beam-acting both as energizer and course-director. In the event of storms at sea, storage batteries would reserve enough energy to operate the vessel until it found the "beam" again.

Railroads would be revolutionized, and aeroplanes might utilize the two-fold advantage of the power "beam" as a course-director and energizer.

The Great Debt Illusion

If Germany defaults on her debts Great Britain is bound to follow. There is no use continuing this illusion of international debt and reparation payments. If we don't end it we may have social upheavals in which more than reparations and international debts may go by the board.

Speaking of increased taxes, is it sporting to jump on an income when it's down?—New Britain Herald.

Irish harps are becoming so rare in Ireland that some were sold recently for \$500 each.

She: "When you were young, did your mother teach you the language of flowers?"

Infantile Paralysis

New Cure Has Yet To Be Found By American Physicians

The medical profession, in United States at least, is still at a loss for facts concerning the cause or cure of infantile paralysis, it was agreed by physicians and scientists attending the twelfth annual meeting here of the Association for Research in Nervous and Mental Diseases.

Even the convalescent serum, so generally advocated and administered during last summer's epidemic, is not yet proved effective; the most that can be said for it is that it does no harm, and most physicians believe in administering it on the theory that it is better to give the patient the benefit of the doubt as to its value, according to several experts.

Decline in Educational Standard

President Of Dalhousie University Refers To School Problems

"There has been a decline in Canadian educational standards during the past few years," declared Carleton W. Stanley, president of Dalhousie University, in a year-end interview on education in general. "And this must be eliminated if Canada is to maintain that glorious democracy that has featured her educational system in the past."

Dalhousie's new president lauded the widespread systems of scholarships in British universities, stressed the need of greater development along similar lines in Canadian universities, and remarked that present-day students exhibited a gratifying interest in their work.

"The decline in educational standards," commented President Stanley, "is due to the swollen attendance at practically every university and high school in Canada, a problem that is becoming more acute every year. Undersatisfied for even such smaller attendances, this appalling increase means that institutions of learning are physically unable to do the work they were intended to do."

He said that while educational authorities were quite frank about this matter among themselves, there seemed to be some unwillingness to discuss it openly, something that must be done very soon.

"The one direction in which we have grown away from democracy," he continued, "is that the cost of education has increased enormously. This is largely because of the increased attendance, and the consequent need for more buildings and for larger staffs, not through the increase of teachers' salaries, as many suppose. These have not nearly kept pace with the cost of living."

International Wheat Movement

Movement Of Wheat And Flour Has Been Satisfactory

Considering the period from Aug. 1 to Dec. 17, the international movement of wheat and flour has been satisfactory, says a statement issued by the Dominion Bureau of Statistics. World shipments for the first 20 weeks of the present cereal year have amounted to 309,000,000 bushels, compared with 311,000,000 bushels for the corresponding period last year.

Considering existing tariffs against imported wheat, milling quotas and other restrictive measures in effect in continental European countries, as well as the availability of supplies of domestic wheat in importing countries, the international movement of wheat during the past four and one-half months has been an encouraging factor in the wheat situation. In spite of the many difficulties resulting from the present economic situation, surplus stocks of wheat are moving into consumption at a rapid rate.

Reduction In Milk Price

Through agreement with the New England Milk Producers' Association the milk distributors of Boston have recently lowered their retail price to ten cents per quart, following reduction of 1 cent in the wholesale price for the second time in a week. This is the lowest price Boston has had to pay for its milk in the past 15 years.

NEW RAILWAY APPOINTMENTS

John MacMillan (left) retires as General Manager of the Canadian Pacific Railway Telegraph Department on January 1st, after having been in the service since 1883, and General Manager since 1921. It is announced that W.D. Neil (right) is appointed General Manager of the Department of Communications of the Canadian Pacific Railway, with supervision over the system's telegraph, telephone and radio broadcasting services. Mr. Neil joined the company as an operator in 1905.

Monster Project To Impound Waters Of North Country To Alleviate Drouth Conditions

Rushing streams of Canada's broad northland may be put to work in the west country's efforts to halt the ravages of drought—most fearful destroyer of Canadian grain crops. Gigantic plans advanced for the consideration of two prairie governments involve formation of a barren-lands lake double the size of the Great Lakes, and development of the west's greatest power project within 150 miles of Winnipeg.

Molature would be added to the prairies' prevailing northwest wind by the proposed flooding of a monster basin in the Northwest Territories. In Manitoba's 400,000 horsepower project, advanced by Premier John Bracken, the province's lakes would be made the storehouse for molature for the fertile prairie plains in the south.

Three of the great rivers pouring into the Arctic Ocean and Hudson Bay would be harnessed. If the two projects were put into force, The Mackenzie River, the St. Lawrence of the north, and the Coppermine would be dammed to form the new lake in the barrens; and the flow of the wandering Saskatchewan would be diverted if the Manitoba plan were brought into effect.

"The more information we obtain, the better the Manitoba project looks," stated C.H. Attwood, Deputy Minister of Mines and Natural Resources, commenting on the plan advanced by Premier Bracken. At the last session of the legislature, \$12,000 was set aside for investigation of the plan for storing the flood-waters of the Saskatchewan and Manitoba's northern lakes.

At the present time, the Saskatchewan flows into the north end of Lake Winnipeg at Grand Rapids, about 70 miles southeast of The Pas. Under the Bracken plan, the river would be diverted south through lakes Winnipegosis and Manitoba, which parallel Lake Winnipeg on the west, and a powerful head of water would be obtained on the Dauphin River, flowing from Lake Manitoba to Lake Winnipeg.

"It has been pointed out that the water-table on the Portage Plains would be higher if the lake levels were higher," Mr. Attwood explained. "Sloughs drying out, in the south draw on the water-table, it is held and as a result the sum total of available growing moisture is diminished. Besides, higher levels are sought by fishermen, duck hunters and muskrat trappers."

Though no estimate has been made of the possible cost of the Bracken project, since full information is not available as yet, it is contended that the work would not involve a large outlay. A dam would be constructed at Grand Rapids and possibly a canal to shorten the course of the Dauphin River where the power plant would be located, but few other works are at present considered necessary.

Shipment of western coal by barge down the Saskatchewan River, which flows from the Rockies' foothills, is

one of the possibilities envisaged in the Bracken plan. Once on the Manitoba lakes, the barge could be routed by means of canals and locks to the Red River and thence directly to Winnipeg. Enquiries regarding the project have been received at Winnipeg from governments of the other prairie provinces, from engineering firms and from municipal governments.

Rough details of the proposal to flood a great area in the northwest by damming the relatively narrow valleys of the north flowing Mackenzie and Coppermine Rivers have been outlined by G. T. Magwood, Herbert, Sask. They are in the hands of Hon. J. F. Bracken, Saskatchewan Minister of Public Works, in his capacity as chairman of a provincial commission on conservation and afforestation.

"Such a lake would flood country still unsettled, and that would involve no expense," reads Mr. Magwood's letter to the commission. "Water power in the Coppermine mineral region would be a source of revenue and the opening of a vast stretch of Cambrian shield mineral deposits would also be a dividend. Such an inland lake would solve our drought problem, for it would take moisture from the Pacific, at present altered out of the winds by the ridge of the Rockies, and scatter it over the prairies."

Bacon Trade Poor

Big Drop In World Prices Is Given As Cause

The action of the Irish Free State Government in placing a protective tariff on bacon from which the various portions of the British Empire are exempt is taken at Ottawa as an encouraging gesture towards Empire trade. However, government experts see little probability of ever building up a trade in Ireland for Canadian bacon. Ireland is itself one of the world's most noted producers of bacon which tops the market in the United Kingdom.

The bacon trade is in a bad way at present. The prices are very low. Bacon is offered retail in Canada as low as 10 cents a pound when not so long ago it was 40 and 50 cents. The big drop in this country came when Canada started exporting. For several months this year the supply was no greater than needed to meet domestic demand and prices held up. Eventually there was a surplus when the export business started, domestic prices tumbled to an equality with world prices.

Control Of Trachoma

Regulations Expected To Be Enacted In Saskatchewan

Special regulations covering the control and prevention of trachoma in Saskatchewan are expected to be inaugurated in the near future, following approval of such action at a meeting of the provincial council on public health, held recently in the office of Dr. F. C. Middleton, Deputy Minister of Public Health at Regina.

Such regulations will be only part of wide changes to be made in regulations for the control and prevention of communicable diseases in the province. Present regulations, Dr. Middleton states, have not been revised since 1923.

Mason: "I heard on the wireless last night that it was certain to rain today, so I propose that we leave off work before we get wet." (Motion carried unanimously).—Sondaglin-Stitz, Stockholm.

STRONG STEPS TAKEN TO CURB UNREST IN INDIA

Bombay, India.—The Government's strict ordinances dealing with every phase of Nationalist activity are now in effect throughout all India.

New and sweeping special decrees, covering the whole Bombay presidency, including the Province of Sind, outlawed 500 Nationalist organizations, including Anti-Drink leagues, spinning schools and boys' boarding schools.

All citizens were warned they might be sentenced to two years of hard labor for peaceful picketing, persuading anyone not to pay taxes, boycotting British goods or public servants, or contributing funds to the Nationalist cause.

Other ordinances, operative in all India, empowered the authorities to fine children for Nationalist activities, the fines being collectable from their parents. Collective fines may be imposed on whole villages and towns.

The authorities may make arrests, raids and searches without warrants, or order the imprisonment of persons without trial. They may control public utility services, posts, telegraphs, railroads and steamships and exercise the right of confiscation of property.

Banks, retail stores and insurance and shipping companies suffered a serious slump in trade. Nearly all Hindu stores, schools and colleges remained closed in mourning for the arrest of Mahatma Gandhi, the Nationalist leader.

As it has become a penal offense for newspapers to print Nationalist programs or any notices that might be construed as inciting, the congress followers adopted the method of writing their announcements, with chalk in huge letters on sidewalks, sides of buildings and other prominent places.

Groups of small boys have been employed by the Nationalists in many cities to parade the streets behind the congress flag and to shout such slogans as "Boycott British Goods," "Gandhi's Government Is Here," and "Long Live the Revolution."

In his jail at Yeroda, Mahatma Gandhi continued to enjoy every courtesy, even being permitted contact with other Nationalist prisoners.

There were persistent rumors Gandhi and other leaders might be deported.

The Government may seize stocks of commodities from private citizens or corporations, compensating them at a price fixed by the Government. The publication of false rumors may be punished by a year's imprisonment.

Room For Britshers

Door Still Open For Desirable Class With a Little Capital

Saint John, N.B.—The district conference of land settlement superintendents of the Maritime area with officials from Ottawa and Fredericton was in session here.

T. MacGladery, Ottawa, chairman of the Soldiers' Settlement Board of Canada, said the door was "still open to Britshers who come to Canada with a little investment capital and work hard, and also to other desirables who will not become charges upon the community."

Friends Of Soviet Union

Saskatoon, Sask.—The Farmers' Unity League stated recently that delegates sent by it to Russia would shortly make lecture tours of Saskatchewan and Alberta. Carl Axelson is to visit points in Northern Saskatchewan. L. P. McNames will speak in the south and Miss Florence Bowes will tour Alberta. They have been addressing meetings in Eastern Canada under the auspices of the "Friends of the Soviet Union."

Police Wound Suspects

Vancouver, B.C.—Two alleged burglars were wounded by Vancouver police bullets on city streets and other officers were arrested. Police believe the arrests will clear up a number of burglaries and house breakings reported in the downtown and west end districts in the past few weeks.

W. N. U. 1924

Storms In Europe

Resultant Floods Are the Cause Of
Six Deaths

London, England.—Storms from Portugal to Scandinavia and floods in many parts of Europe caused six deaths, and distress for several ships.

The British steamer Jersey City sent urgent calls for help from a position near the Scilly Islands, saying it was out of control with its machinery broken down. A motor barge sank in the Thames estuary, but the crew of three was saved.

The Grecian steamer "Alexandria" grounded two miles off the coast in Dungeness Bay in the English Channel and later was refloated.

A violent southwest delayed departure of the liner "Paris" from La Havre, France, three hours. A fishing boat sank in a fierce gale off the Breton coast, but the crew of two was saved.

The wind had reached a force of 80 miles an hour over some parts of Great Britain Wednesday night, January 6, while the Scilly Islands were lashed by a 93-mile gale. The battleship "Royal Sovereign" and the cruiser "Exeter" went to the assistance of the British freighter "Troyator," which had lost a propeller and was drifting in peril off Plymouth.

The tremendous gales were accompanied by rain storms which flooded much of England, Ireland and Wales, and forced suspension of quayside and other activities in many places.

A boat belonging to H.M.S. Whirlwind was swamped at Sheerness and one seaman was lost.

The harbor at Lisbon, Portugal, was shrouded in dense fog and several accidents were reported.

The wind in London was so violent that a mail van was blown over on its side in the centre of the city.

The weather bureau said the gale was one of several due to strike during the next few days.

From Prague, Czechoslovakia, came reports of floods that submerged many homes and resulted in one death.

Halberstadt, Germany, reported the deaths of three persons in floods in the surrounding territory.

Considerable property damage but no loss of life was suffered in the neighborhood of Bar-le-Duc, France, where the Marne and several other rivers were in flood.

Give Wrong Impression

Newspaper Criticized On Attitude Towards Schools

Saskatoon, Sask.—Daily and weekly newspapers give the child the wrong "slant" on school life, according to Dr. S. R. Laycock, of Saskatchewan University. Newspapers comment in September on the fact that the child must give up his freedom on returning to the school which the papers give the atmosphere of a "prison" and finally in June, they "let out" from their mythical school prison. Dr. Laycock, lecturing to a class on school management, declared that newspapers should refrain from such adverse comment.

SUNDAY SCHOOL LESSON

JANUARY 17

JESUS AND NICODEMUS

Golden Text: "God so loved the world, that He gave His only begotten Son, that whosoever believeth on Him should not perish but have eternal life."—John 3:16.
Lesson: John 3:1-21.
Devotional Reading: 1 John 5:1-5.

Explanations and Comments

The Necessity For the New Birth, verses 1-6.—Nicodemus was a very important man among the Jews—a Pharisee (a member of that sect which as a rule appears in the Gospels as bigoted and hypocritical) and a ruler of the Jews, a member of the Sanhedrin, the council of seventy men who formed the Jewish Court of Justice. See John 7:45-52; 19:39-42. He was a cautious man, and doubtless did not wish to be seen visiting the new Rabbi, therefore he sought Jesus out at night. We are told in John 12:43 that some even of the Sanhedrin believed in Jesus, but dared not let this be known, as they were put out of the synagogue. Nicodemus' first words show that he was convinced that Jesus was a divinely-commissioned Teacher, and that Jesus' teaching was authenticated by His miracles; he had come to listen to Him.

CRITICIZED BY PRESS

His Grace, Cosmo Lang, Archbishop of Canterbury, who has been severely criticized by the British press for the form of prayer which he has authorized for use on January 3rd, when the Church of England will hold united intercession services.

Mountie Has Narrow Escape

Shot Misses Constable's Heart By
Narrow Margin

Aklavik, N.W.T.—The shot fired at Constable A. W. King, of the R.C.M.P., by a crazed trapper at a lonely cabin on the old Yukon trail, missed the constable's heart by a scant inch, a medical examination of King has revealed. The injured man, cared for by Dr. J. A. Urquhart in hospital, is recovering.

Meanwhile a patrol headed by Inspector James is pressing forward 50 miles to reach the Yukon trail cabin to arrest Albert Johnson, who is believed to be the demented man seen tampering with Indian trap lines and who is blamed for the shooting of the constable.

The wounded officer was placed on a sleigh by his companion, Constable R. G. McDowell, and brought to Aklavik.

Back To The Land

Montreal, Que.—In the operation of its scheme for the return to the land of former farmers now living in the city and unemployed, the provincial department of colonization had placed 23,000 persons on the farm, or some 6,000 families, during the year 1931, according to a statement of Hon. R. LaForte, Minister of Colonization and Fisheries.

Appointed Deputy Governor

London, England.—Sir George Ernest May, a director of the British Overseas Bank and well-known financier, has been appointed Deputy Governor of the Hudson's Bay Company in succession to Sir Frederick Richmond, who has resigned.

Mail Pouch Disappears

Boston, Mass.—Postal authorities here were notified that a mail pouch containing 100,000 worth of securities and which had been placed on a Boston-bound train in Lowell, had disappeared.

For Imperial Trade

Australia Takes Strong Stand For
Trade Within Empire

Canberra, Australia.—Through the medium of "talking pictures," Prime Minister Joseph Lyons declared the new Australian Government stands for the fullest measure of Imperial preferential trade with Great Britain and her sister Dominions. The Government would earnestly strive to make a success of the forthcoming Imperial Economic Conference at Ottawa, he added.

Mr. Lyons introduced the members of the new United Party before the cameras. The occasion was the gathering of the cabinet to formally take office.

Consideration of revised tariff schedules will be the first business of the new Australian Parliament when it assembles on February 17, it was announced after the first meeting of the new cabinet under the Prime Minister this afternoon.

The first act of the United Party cabinet was to re-appoint Claude Reading to the board of directors of the Commonwealth Bank.

Churchill Delivers Address

Praises Premier Bennett As a Man
Of Vision

Nassau, Bahamas.—In his first public appearance since his recent accident in New York, Rt. Hon. Winston Churchill, M.P., former Chancellor of the Exchequer, was guest at dinner here of the executive council, the legislative council and the House of Assembly of the Bahamas. His excellency, the administrator, Hon. Charles Dundas, presided. Mr. Churchill showed facial evidence of his injury but appeared in vigorous health.

"The Bahamas should be the garden of Canada," Mr. Churchill stated in a brief address in which he recommended the closest relations with the Dominion. He praised Rt. Hon. R. B. Bennett, Prime Minister of Canada, as "a man of vision." The Empire will not fail to pieces. It is sound at heart and the workers of Britain have set themselves to keep it safe as of old," Mr. Churchill said.

War On Bookmakers

Drastic Campaign Against Betting
Anticipated In Winnipeg

Winnipeg, Man.—Winnipeg bookmakers are reported in for a hot time in the next few weeks. Following the arrest of two officials of the Provincial Treasury Department charged with embezzlement of more than \$100,000 and statements from the accused that they had lost money in race track gambling, provincial authorities are turning their attention to the activities of the bookies.

Police officials decline to discuss the matter, but a drastic campaign against betting is anticipated.

Moslem Leader Dies

Lahore, India.—Sir Muhammad Shaif, noted Moslem leader and delegate to the recent Indian Round Table Conference at London, England, died here at the age of 62.

DEBT ACCORD IS BEING SOUGHT BY THE BRITISH

London, England.—Indications that the British Government was seeking to form a united front with the French for the international reparations conference to be held at Lausanne appeared at a meeting of a cabinet sub-committee.

Contrary to expectations, Viscount Snowden of Ickneshaw, former Chancellor of the Exchequer, whose stand for British interests at The Hague reparations conference in 1929 made him a national hero, attended the meeting of the sub-committee on reparations.

Sir Frederick Leith-Ross, British treasury expert, who has acted as a link between the British and French Governments in discussions preliminary to the Lausanne conference, also attended.

Prime Minister Ramsay MacDonald cut short his vacation in Scotland and prepared to leave for London partly to negotiate with France on a date for the Lausanne. The British are pressing for early January 18 or 20, while the French have proposed that the conference be delayed until January 25.

Japs Capture Port

Hulutao Is Taken By Japanese With-
out Resistance

Mukden, Manchuria.—The port of Hulutao, south of Chinchow on the Gulf of Liatunow, which Governor Chang Hsueh-Liang planned to turn into a great outlet for the products of Manchuria, was captured without resistance by the Japanese.

Japanese army headquarters explained the occupation was part of the campaign to suppress banditry in South Manchuria and that the larger question of the port's future must depend on negotiations in which the Mukden Government of Tsang Shih-Yi probably will be considered here to the equity of Chang Hsueh-Liang who was deposed as governor of Manchuria by Japanese troops.

Already, however, influential Japanese are urging that Hulutao be included in the Japanese-controlled communications system for all Manchuria.

Legislative Sitings

Saskatchewan House To Open On
Thursday, February 4

Regina, Sask.—The fourth session of the seventh legislature of Saskatchewan will open on Thursday, February 4, according to official word received from Premier J. T. M. Anderson.

On the same date the legislature of Alberta will also open, and also the House of Commons at Ottawa. In view of this popularity of February 4 for opening legislative sittings, it is considered likely that Manitoba's House will also convene on that day, though official word to that effect is as yet lacking.

Early Chicken Hatch

Sault Ste. Marie, Ont.—A hen belonging to Mrs. Robert Moreland of the Saulte has surpassed the feat of the Saulte, Ont., hen reported to have hatched six chicks in the open a few days ago. This hen, a barred rock, hatched nine chicks under the back porch of the Moreland home. The family is reported doing well.

Noted Aviator Is Killed

Miami, Fla.—Dale (Red) Jackson, co-holder of the world's endurance aeroplane record, was killed when an Amphibian plane he was stunting above the municipal airport fell approximately 2,000 feet to the ground.

Writer Hit By Truck

Clarkson, Ont.—Sidney H. Preston, well known author, was struck by a truck while turning in his car on to the Hamilton Highway here, and is lying in a critical condition with concussion of the brain.

Royalty At Sandringham

London, England.—The King and Queen are expected to remain at Sandringham, Norfolk, where they spent the Christmas holidays, until the end of this month.

With a solar toupee concealing the luxuriant crop of hair for which he is noted, David Lloyd George, former Prime Minister of Great Britain and leader of the Liberal Party, is shown with his wife and their daughter Megan, upon their arrival in Bombay, India. The wartime leader left England with his family, after the recent elections, for a tour in the East, on the advice of his physicians.

Death of Mrs. Mountain

The death of Mrs Gertrude Hall Mountain occurred on Friday Jan. 8th, after a long illness, at the family residence 112th St., Edmonton. Mr and Mrs Franklin K Clarke of Jasper came down to attend the funeral which was held at All Saints Cathedral on Tuesday afternoon at 2 p.m. Canon Pierce Goulding officiating. Interment was made in Edmonton cemetery.

Passing of Mrs. Mary Meeds

The funeral took place on Saturday afternoon last of Mrs Mary Meeds, beloved wife of Mr C L Meeds, who had been a resident of Holborn district for the past 30 years.

A service was held at her late residence, and also at the graveside; interment being made in Inga cemetery.

Deceased was in her 80th year, and leaves a wide circle of friends and relatives who mourn her passing.

Mr C L Meeds and Family have the heartfelt sympathy of all in their sad bereavement.

The funeral arrangements were under the direction of Mr John Armbruster.

Sunday's Game.

There was a very good hockey game on the Zucht Rink Sunday, when the team from Onoway was present. The visitors did some good stick handling, but were weakened considerably by the absence of their star performer, Mr E. Heichen. At that, they held Stony down to a tie—2 all at the end of the 3d period. In the extra 10 mins. Stony got 2 goals and Onoway 1. Louis Miller, Stony's goalie, N. Sutherland, referee.

Lady Curlers Invade the City

A representative rink from the local ladies' curling club visited Edmonton last week on January 6, and joined in friendly games with the lady members of the Thistle rink. The Stony ladies were fortunate in winning by the score of 8 to 6.

Stony's crew: Mesdames Lewis, Oatway, H. Oppertshausen, R A Walton skip.

Another rink of lady curlers from Stony are playing in Edmonton today.

Stony Plain and District

Mr C L Price is at present on a visit to friends at Victoria, B.C.

Mrs B Wainberg, Bashaw, and Mrs S Wainberg, Edmonton, were visitors here this week with Mrs M Comisarow. Phil Enders is expected to arrive home on Monday next from Chicago.

Mr H T Walton, the Main St. farmer, is making a slow recovery from an injury to his foot.

Mr J F Clarke last week installed a Victor combination Radio and Gramophone at the Comisarow home. The gramophone plays the new 30 minute record.

Do you know that the high bridge in glasses is the latest style. See M Mecklenburg, who will be at the Royal Hotel, in Stony Plain, on Friday March 4.

Attention is called to the venture of that enterprising caterer Proprietor Larson of the Royal Cafe. Each week a coupon is printed in Mr Larson's advt. in The Sun worth 10c on any regular cooked meal on a week day. All you gotta do is clip the coupon and grab off a meal.

White, yellow, pink, gold, high bridge frames are the latest in spectacles. See M Mecklenburg, as Stony Plain Friday March 4.

Tuesday's No. 1 train was about 7 hours late.

If others failed to satisfy you, See M Mecklenburg, at the Royal Hotel, Stony Plain, Friday March 4.

The Moose Lodge is putting on another dance at their hall on Feb. 5th.

EGGS WANTED at the Royal Cafe; best prices paid.

Jack Nichols Leaves.

Jack Nichols last week sold his interests in the restaurant at Spruce Grove and had been staying with friends in Stony Plain for a few days. Jack had been operating the eating place at the Grove for several years, and proved to be very popular with his patrons, who will no doubt patronize him when he operates a restaurant in the City, to which place he went, on leaving Stony on Monday morning. The restaurant at the Grove is now being run by a new partnership.

Spruce Grove News

Miss F Pinchbeck, who was taken to the Royal Alexandra Hospital to be operated on for appendicitis on New Year's Day, is now on the way to a good recovery.

At Spruce Grove, on Wed. Jan. 6, to the wife of Romeo Rivest, a son.

Business in the hair cutting and shaving line has picked up considerably here since the popular young barber from Stony started making his bi-weekly visits here.

Messrs E Pinchbeck, Geo J Wehorue and Ernest Willette have been appointed official auditors for the year 1932.

Muir Lake Community.

There was a good attendance of members at the annual meeting last week of Muir Lake Community in their hall. A new president was elected, in the person of Mr A V Carter. Mr Alec Zeiler was re-elected secretary; as also were the other 1931 officers.

After several minor matters had been attended to, a discussion took place on holding another public dance. It was agreed that the opening dance of the season—an Old Time dance—should take place on Friday evening, Jan. 22nd. With a good orchestra engaged to be present, this affair should be well attended.

Why go elsewhere, when you can get the very best, latest styles in glasses for only \$10? See M Mecklenburg at Royal Hotel, Stony Plain, Fri. Mar. 4. Charges moderate.

Stony Plain.

U. F. W. A. to Meet.

The United Farm Women; which meets next week in Edmonton, are due for a busy time, as, among other business to come up for discussion are resolutions such as these:

Discharge of all aliens in the public service.

Requirement of grade twelve standing for Normal School entrance.

Provision for teaching grade 12 in rural schools.

Women be considered in the appointment of Public School inspectors.

That the Government pass an Order-in-Council closing beer halls.

The University of Alberta establish a department for the study of chiropractic.

U. F. Convention Next Week

The United Farmers of Alberta will meet in convention in First Presbyterian Church, Edmonton, on Tuesday next, Jan. 19, and continue in session until Friday.

On Thurs. evening an address will be given by H. W. Wood.

The following are among some of the resolutions which will be submitted for the consideration of the delegates:

Declaring that school boards should not have to pay teachers' salaries for convention periods.

Urging the Attorney-General's Dept. to take steps to effectively curb poultry thieving.

Urging that all beer parlors be closed as an emergency measure.

Asking the University Extension Dept. to organize a Chautauque during winter months.

Demanding that the Federal Gov't bonus agricultural production in proportion to the benefits enjoyed by manufacturers thru the tariff.

Suggesting that rural municipalities be empowered to have on hand and to sell caakots at various prices up to \$30.

Asking the Provincial Gov't to endeavor to formulate some workable plan for the payment of arrears of taxes.

Approving the principle of public ownership of all natural resources, including land.

Asking that Municipalities be given the right to tax beer parlors "according to the actual privilege value."

Suggesting that the U. F. A. establish a scholarship for rural young people.

Urging that it be made a criminal offence for auctioneers to give a false guarantee.

Favoring a weekly half holiday during the summer months in the farming industry.

Asking that threshermen's bean scales be inspected.

The four following are sponsored by Stony Plain Provincial Constituency Assoc'n—

Urging the necessity of providing hard surfaced roads for farmers distant removed from railway points.

Asking that all Municipal Councils make a thorough assessment at the next period, and every ten years only, thereafter.

Recommending that all males over 20 years of age pay a poll tax.

Recommending that residence in Canada, for the purpose of old age purposes, should be calculated from the date of naturalisation.

Dr. Kiang Uses New Scientific Devices

Speaking to the weekly luncheon meeting of the Advertising Club of Montreal recently on "China Today," with special reference to advertising practices, old and new, Dr. Kiang Kang-Hu, Professor of Chinese Studies at McGill University, used a number of newly developed scientific devices, loaned by the Research Products Department of the Northern Electric Company, Limited.

The inside photographs shown here were taken by the new photographic flash lamp which leaves no smoke or odour and is therefore permitted for use in even the finest surroundings. And in order that the speaker's voice might be easily audible without undue strain, a special small lapel type microphone recently developed in the Bell Telephone Laboratories was provided for his use in conjunction with the Public Address System (voice amplifiers). This microphone has been specially developed for use by lecturers who from the nature of their address are obliged to turn away from their audience and point to a blackboard or map and would, therefore, not be facing the ordinary microphone.

Pictures 1, corner of luncheon room; 2, a street scene in old China; 3, Dr. Kiang wearing the new microphone; 4, amplifier truck outside the Mount Royal Hotel.

U.F.A Local to Meet.

Stony Plain United Farmers Local will hold a special meeting on Saturday next, January 16. The meeting will be held in the U. F. A. Hall, over the Postoffice, and is called for 7 p.m. The business of the meeting will include election of officers and appointing a delegate to next week's convention.

With the Curlers.

On Jan. 6th last a party of curlers consisting of those members who played the two rinks from the Royal Curling club at Stony Plain, journeyed to Edmonton and played the return games with the same results; the Royal curlers winning both games.

The competition between the Vice-Pres. and President has resulted in a decided win for the Pres.; so the Vice Pres.' rinks will be called up on to set up the eats.

The curlers regret the absence of Mr. Yeats from their ranks, but are rejoicing over his steady recovery.

For a Shorter Work Day

The Sun is in receipt of a communication from a resident, inquiring in view of the fact that this is the slack season in business circles, why the hours in the business houses in town cannot be shortened somewhat, particularly on Saturday evenings.

As a large percentage of the farmer shopping is done thru the daytime at this present season, the sense in keeping retail stores open until ten p.m. on Saturdays is not apparent.

The business people interested in this matter should get together, come to a mutual agreement, and put the Saturday Evening early closing into effect.

Let the slogan be: "We Close at 8 on Sat. Evg."
